

June 2004
Early Action Compact Progress Report

County Name: Aiken

Was the Local Early Action Plan for the county submitted to DHEC by March 31, 2004?	Yes
In April 2004, what did EPA designate the county for the 8-hour ozone standard?	Attainment

1. In an effort to keep our contact information updated; please provide the following information for your county:

	Name	Telephone	E-mail Address
Administrator/Manager	Clay Killian	803-642-2012	ckillian@aikencountysc.gov
EAC contact	Stephen Strohming	803-642-1520	ssstrohming@aikencountysc.gov

2. Describe any progress (if applicable) since your March 2004 submittal? (stakeholder meetings, events held; special projects; etc.)

We have participated in three local events where we promoted ideas that citizens could use to help reduce ground level ozone precursors. As our transit system uses bio-diesel, we have also discussed its use with other local agencies.

3. Do you have any requests for specific assistance from DHEC and/or the EPA (outreach services, grants, etc.)?

We would like some sample ads that we could run in the local papers, local radio, and local television to increase awareness of the ozone problem and that describe ways citizens can help reduce the problem.

4. Name of Person Completing Progress Report: Stephen Strohming, Aiken County Air Quality Coordinator

Date: June 8, 2004
